

A38 Package of work scheme e-bulletin – w/c 13 April 2020

Welcome to the traffic management bulletin for the package of work that we're delivering on the A38. We'll use this bulletin to inform of any closures of the A38 between Lichfield and the A50 as well as any details such as traffic lights or narrow lanes. Whenever we have a closure we'll provide a signed diversion route and send diversion maps with this bulletin. All diversion routes have been agreed by Staffordshire County council.

We will start our package of work with some preparation to allow us to install narrow lanes on the A38 through the Barton Turns junction. Installing narrow lanes will allow us to perform our repairs to the structure above the A38 without any extra closures of the A38 and keep 2 lanes open for the duration of the repairs.

We're sorry for any disruption that our work may cause you; please plan and allow extra time for your journey. For up to date details of closures on our network please check the [Roadworks finder](#). We also have a twitter feed you can follow [here](#) for roadworks notifications. For further information about our work, please contact:
