

# Hedgehog Highways

Hedgehogs are the gardener's friend, eating slugs and snails. They need a large area to forage in, typically 3 or more gardens. In order to do this, they need to be able to get under, or through, fences. Let us make Kings Bromley hedgehog friendly by making 'hedgehog highways'.

The Village Hall and Parish Council have kicked this off by making tunnels between the Village Hall playground and Barn House & 35 Leofric Close:
