

A38 Package of work scheme

e-bulletin – w/c 13 September 2021

Welcome to this week's traffic management bulletin for the package of work that we're delivering on the A38.

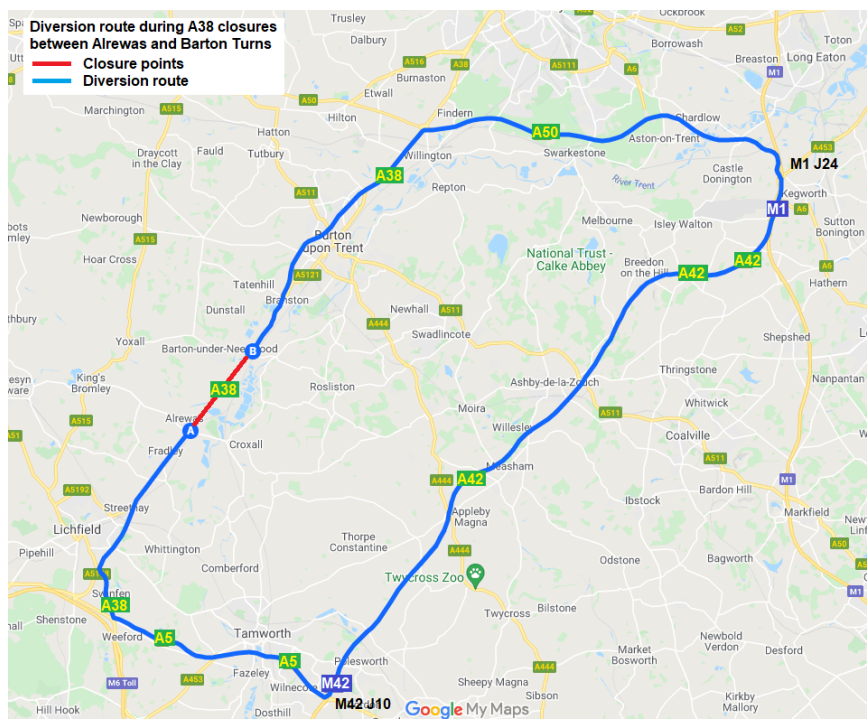

This week we continue our work on the northbound carriageway between Alrewas junction and Barton Turns junction to remove the redundant layby, replace some safety barriers and continue our work replacing electrical cabling.

From Monday 20 September we'll start our work on the southbound carriageway between Barton Turns junction and Alrewas junction to replace electrical cabling.

During the closures we'll be utilising the alternative diversion route that was in place earlier in the month (please see map below). This will help reduce the impact of the diversion on the local road network.

We're sorry for any disruption that our work may cause you; please plan and allow extra time for your journey. We also have a twitter feed you can follow [here](#) for roadworks notifications. For further information about our work, please contact: info@highwaysengland.co.uk

We're always looking to improve the way we work, and we would like to ask you to complete a short questionnaire to give us your feedback. If you could spare just 4 minutes (maximum) and complete the survey, click [here](#).
