

# Notice of A38 overnight southbound closures at Streethay, Lichfield

May 2022 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. Balfour Beatty VINCI (BBV) is working in partnership with HS2 Ltd to build the new high-speed railway in your area.

## The work we will be doing

We are constructing a bridge to take the A38 over the HS2 line. During the parliamentary stages we identified ways to reduce the visual impact of the scheme, we responded to concerns and the design was changed to a cutting. This means the HS2 line will now run under the A38 and existing railway lines, so that it is less visible in your line of sight.

During this phase of work, we will be installing approximately 135m of pedestrian fencing, diverting utility services to prepare for future works, and undertaking localised vegetation clearance between the A38 southbound carriageway and slip road at Streethay.

## How we will affect you

To carry out our works safely we will install two nights of southbound carriageway closures on the A38 at Streethay on Monday 6 and Tuesday 7 June 2022.

Our working hours during the overnight closures will commence at 9pm each evening and we will reopen, before rush hour, at 5am each morning. Our workforce may be onsite up to one hour before and after these times to set up and secure equipment.

## Where we will be working

The map on the following page details the A38 overnight closure and diversion route which will be in place on the nights of Monday 6 and Tuesday 7 June 2022.

Our work is subject to consent being granted.

## About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
