

Yoxall Health Centre

The Yoxall Health Centre has undertaken a recruitment programme with the intention of re-establishing face-to-face appointments.

Face-to-face appointments can be arranged from the 20th June by a telephone call or online. The practice now has two permanent doctors and three locums. The resident doctors are: Dr E Gunn and Dr S Kaul. They are now joined by three locums, one of whom is Dr Winchurch.

Yoxall Health Centre is one of the first in Staffordshire to re-establish face-to-face appointments. Efforts are being made to increase the number of nurses at the practice, so there might be slight delays if an appointment with a nurse is required.

Important note: If you book an appointment with the practice, but find that due to circumstances outside your control you cannot attend, please advise the practice so that your appointment can be re-allocated to someone else.

Steve Browne, Kings Bromley Parish Council
