HS2 Update

A515, Wood End Lane, Lichfield | November 2022

High Speed Two (HS2) is the new high speed railway for Britain. Working on behalf of HS2 Ltd, Balfour Beatty is carrying out utility surveys on Wood End Lane, Lichfield.

Wood End Lane Update

Ahead of our proposed highway improvement scheme on Wood End Lane, Lichfield, we need to construct a temporary work compound.

The temporary work compound will be used for the duration of our works on Wood End Lane and will be located on the A515 opposite the existing HS2 Phase One compound.

In preparation for the construction of the work compound we will be installing highway signage on the verges leading up to the site entrance.

The signage will be in place from mid - November 2022 until our works are completed.

Once the signage has been installed the construction of the temporary work compound will begin. In the first instance you may see our workforce on site undertaking preparatory works such as trial holes and fencing.

The work to complete the construction of the compound will continue until early 2023.

Once we have built the compound in 2023 our highway improvements team will begin with vegetation clearance on Wood End Lane.

We will send further information on our works as we progress.

Construction of temporary work compound

Work will begin on the compound in mid-November 2022 until early 2023.

The compound will be located on the A515.

We will continue to keep you updated and will send you more information in early 2023.

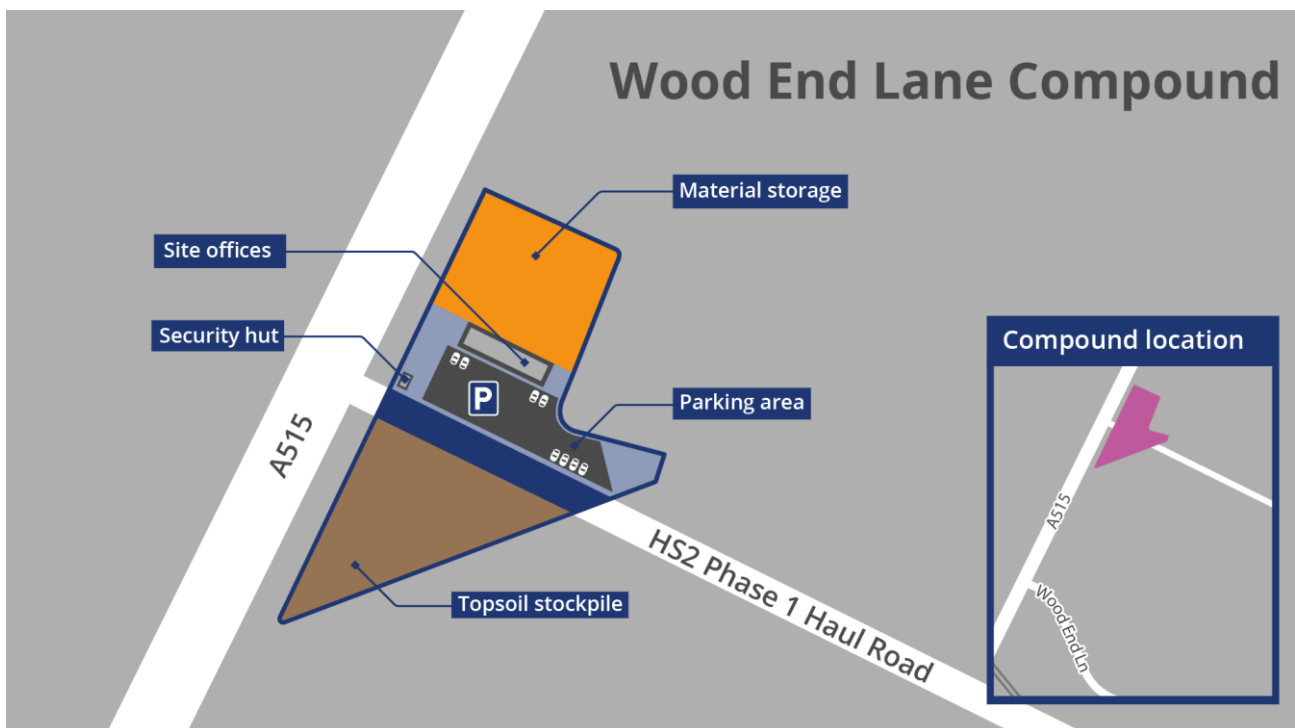

Location of temporary work compound

Mobilisation to construct the temporary work compound is due to begin in November 2022 and continue to into early 2023 when site cabins and welfare services will be installed.

The site will include;

- 41 car parking spaces
- site offices including welfare units
