

Kings Bromley

PARISH COUNCIL

DECEMBER 2022

“A long, cold winter ahead” – Can you help?

The Covid epidemic reminded us that Kings Bromley residents are good at looking after each other. We need to draw on these compassionate skills again.

We are all facing a long hard winter with high energy costs and inflation adding to an ever rising cost of living. The parish council know that there will be those in the parish who will struggle. They don't know if they will be the elderly or younger residents but they realise that pride might make it hard to admit need.

The Parish Council are hoping to offer a warm space and is planning to work with other organisations in the village to offer opportunities to support each other. They also plan to publish a directory to show where other help is available around us. Do look out for leaflets that will come through your door as well as being on the Parish Council website and probably on “Mutterings”. We hope to begin in January 2023.

Today we are looking for volunteers to act as eyes and ears in our streets for those who may be lonely, old, or simply frightened by the variety of problems we might have to face. If you could help, please email this information to the Parish Council lead on this matter: bromleyjhb@aol.com or return this form to John Bowman, 43 Lanes Close or telephone 01543 473096.

We hope to provide some training if needed.
