

A38 Lichfield to Toyota Island weekly e-bulletin w/c 8 April 2024

Welcome to this week's traffic management bulletin for the package of work that National Highways is delivering on the A38 between Lichfield and Toyota Island in Derby.

Over the coming weeks, we'll be returning to complete the outstanding work of the A38 Fradley to Barton combined maintenance scheme. Our work will include safety barrier repairs, lighting upgrades and replacing signs.

From Monday 8 April to Friday 12 April, overnight between 8pm and 6am, we'll have full closures of the A38 northbound, between the Hilliards Cross junction and Branston junction.

Please see the below diversion for these closures.

On Monday 8 April, we'll be starting our A38 Toyota to Mickleover maintenance scheme. During this scheme we'll be repairing the safety barrier in the central reservation along the A38 between Toyota Island and Mickleover. We'll also be carrying out vegetation clearance and grass cutting along this section. Our work will ensure that the safety barrier and vegetation is well maintained to ensure we continue to provide safe travel through the Midlands.

To complete our work safely, we'll work under a combination of full carriageway closures and lane closures, between Toyota Island and the A516 junction at Mickleover. This work will take place over night, between 8pm and 6am, Monday to Friday.

This scheme will be carried out under the following phases:

Phase 1 – **8 April to 19 April** – full northbound carriageway closures from Toyota Island to the A516 Mickleover junction. A southbound lane 2 closure will be in place during these times.

Phase 2 – **22 April to 17 May** – full southbound carriageway closures from A516 Mickleover junction to Toyota Island. A northbound lane 2 closure will be in place during these times.

Phase 3 – **20 May to 7 June** – northbound lane closures from Toyota Island to the A516 Mickleover junction.

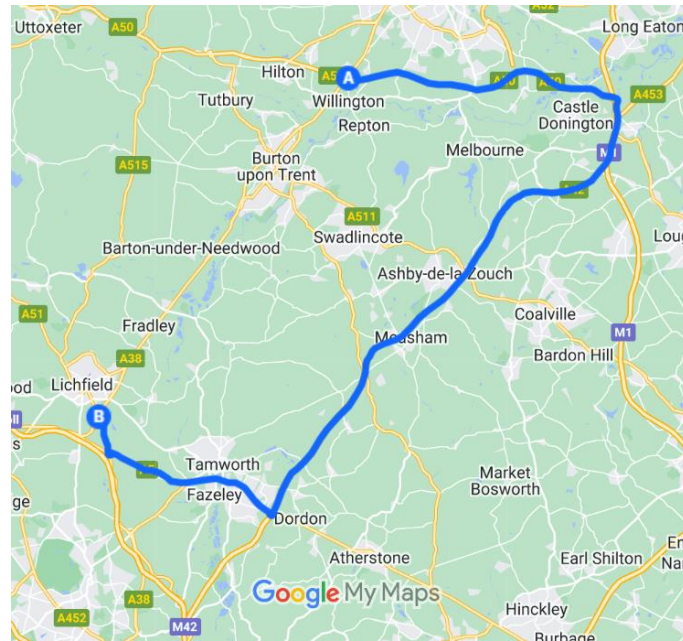

Phase 4 – **10 June to 21 June** – southbound lane closures from A516 Mickleover junction to Toyota Island.

Please see the below diversion for these closures.
